April 1st, 1919

Dean C. H. King,

University of Saskatchewan.

My dear Dr. King:

Professor Baker has not yet announced that he will retire from his chair, though the newspaper reporter had his name among others as being likely to withdraw from active duties this spring. The announcement was therefore premature but even if he were to retire any new appointments would be of a lower grade. Already we have three full professors in the department, Dr Lowy, Fields and Mackenzie, and in all probability we should have to bring in men of a junior grade.

With kind regards, I am,

Yours sincerely,

President.
